

**Tetra Mechanical Services LLC**

## **Capability Statement**

---

### **Company Overview**

Tetra Mechanical Services LLC is a full-service mechanical contracting firm specializing in large-scale piping and mechanical installations across the metropolitan New York area. We deliver high-quality work with precision, efficiency, and safety providing value driven solutions for complex commercial, institutional, and infrastructure projects.

Tetra also maintains access to a **qualified MWBE subcontractor** to help clients meet diversity participation requirements on public and private projects throughout New York City.

---

### **Ownership Experience**

Tetra Mechanical is a **Steamfitter-owned and operated**.

**President- Director of Operations — Robert Covelli** Co-Founder, Tetra Mechanical Services LLC

Robert Covelli is a seasoned Local 638 Steamfitter, Superintendent, and Mechanical Operations Lead with over 18 years of field experience overseeing large-scale mechanical and fire suppression projects throughout New York City. His background spans commercial HVAC, power generation, and infrastructure upgrades for major clients including NYU, Con Edison, and the Port Authority.

As Director of Operations at Tetra Mechanical, Robert brings deep expertise in workforce supervision, critical-path scheduling, and safety compliance having managed large union crews on fast-paced, high-value projects. He is known for his ability to coordinate complex installations under tight deadlines while maintaining uncompromising quality and safety standards.

Robert's hands-on leadership and extensive trade knowledge serve as the backbone of Tetra's operations, ensuring each project is delivered efficiently, safely, and in full alignment with client expectations.

**Co-Founder Joseph Demasi**, a proud member of Local 638 Steamfitters, has nearly 20 years of field and management experience. He has led complex fire protection and mechanical piping projects across New York City, including the World Trade Center, Hudson Yards, 138 East 50th Street, 610 Lexington Avenue, and multiple Con Edison facilities. Joe's leadership blends deep field expertise with project management and business development acumen.

Tetra's leadership team also maintains strategic partnerships with established industry professionals and suppliers, providing access to robust financial resources, and proven project delivery systems. This foundation allows Tetra to confidently take on schedule-driven, large-scale projects while meeting all bonding and insurance requirements.

---

### **Core Services Capabilities**

- Mechanical piping and HVAC installations
- Fire sprinkler installation, design, and procurement.
- In-house design capabilities: BIM coordination, AutoCAD, SprinkCAD, 3D modeling, spool sheet production, fabrication, and hydraulic calculations.
- Preconstruction budgeting and value engineering
- Design/Build collaboration and constructability reviews.
- Procurement, material management, and vendor coordination

---

## **Bonding & Insurance**

- **Bonding:** Fully in place (bonding letter available upon request)
  - **Insurance:** Comprehensive coverage including General Liability, Workers' Compensation, and Umbrella policies
- 

## **Representative Projects**

### **JFK Terminal 6 – PJ Mechanical | Port Authority**

Contract Value: \$60,000,000

Installed major mechanical systems under strict schedule requirements.

Contact : Louis Ventura, PM – (917) 576-4967 | LVentura@PJMechanical.com

### **NYU Cogen Boiler Replacement – Skanska | NYU**

Contract Value: \$28,000,000

Executed full Cogen boiler replacement, including piping and integration, maintaining continuous campus operations.

Contact: Paul Caretsky – (917) 617-9065 | Paul.Caretsky@skanska.com

### **NYU Campus Upgrades – Mechanical Piping – NYU**

Contract Value: \$428,490

Upgraded campus-wide mechanical piping systems to improve efficiency and reliability.

Contact: Gino Trevellini – (646) 872-2644 | Gt2339@nyu.edu

### **Critical Path High Reheat Valve Out – Fresh Meadow Mechanical | NY Power Authority**

Contract Value: \$414,000

Replaced high reheat valve on a critical path schedule, avoiding costly delays. Contact:

Jorge Henao – (929) 204-0178 | Jhenao@fmmcorp.com

### **Con Edison – South Steam Mixed Media Filter Removal – Fresh Meadow Mechanical | Con Edison**

Contract Value: \$127,000

Performed mixed media filter removal under strict safety and outage constraints. Contact:

Jerry Kellnar – (631) 431-2303 | Jkellnar@fmmcorp.com
